

NOTICE

October 2026

COLUMBARIUM NICHE URN DIMENSIONS

Please be advised that the interior dimensions of the Town of Unity columbarium niches have been confirmed and updated. To allow sufficient clearance for placement and finger guidance on both sides of the urn, the absolute maximum allowable COLUMBARIUM urn dimensions (including handles, base, decorations, etc) are:

Length: 12"
Height: 10.5"
Width: 10"

Please update your records and documentation accordingly. All previously referenced documented niche dimensions should be removed, as relying on the size of the niche, may result in urn dimensions that are too large for the niche.

PLOT INTERMENT URN DIMENSIONS

For planning purposes of plot interment of cremains, standard plot interments are arranged to accommodate cremation urns measuring up to:

Length: 12"
Height: 12"
Width: 12"

If urn is larger than 12x12x12, our office requires dimension details at the time interment arrangements are made to accommodate the increased size efficiently.

URN SERVICE PROVIDERS

Please assist by ensuring your clients are aware of the above requirements and providing families the final dimensions.

Thank you for your assistance with the above.
