

## APPLICATION FOR BUILDING PERMIT PACKAGE

Please read all of the information in this package carefully. It contains details on all the information that needs to be submitted before the application can be processed. This application process will take approximately one month to process.

**NOTE: All Building Permits MUST be paid in full PRIOR to commencement of construction. Failure to do so will initiate a Stop Order on construction.** Building Permit Invoices are issued upon approved applications.

The following pages are included:

- ✓ Information to be submitted along with your Application
- ✓ Town of Unity Application for Development Permit
- ✓ Town of Unity Building Permit Application
- ✓ Accessory Building Checklist & Required Drawings
- ✓ Application for Water & Sewer Utility Services
- ✓ Governing document excerpts applicable to Building Permits
- ✓ Water & Sewer Laterals Installation / Breaks
- ✓ Site Development Regulations for **Commercial – C1** development

Your completed application may be dropped off at the Town Office.

## **Information Required When Submitting A Building Permit**

A building permit application must be completed by the owner or an agent of the owner.

**TWO (2)** plans/drawings must be submitted with the completed building permit application to show what will be built. **One of these must be in PDF format and should include all aspects listed below. These can be forwarded to [townofunity@sasktel.net](mailto:townofunity@sasktel.net)** All drawings should:

- Show the owner's name, project name and date
- Be drawn to scale (1:50 or ¼ " = 1' or to suit) and the scale should be noted.
- Be blackline or blueline prints on good quality paper.
- Have legible letters and dimensions which can be read from the bottom or right hand side of the page.
- Be marked with the architect's or engineer's stamp and signature.
- Clearly show the locations of existing and new construction for additions, alterations and renovations.

The drawings which will be required are listed below. Information typically shown on these drawings is listed, but other information must be added if necessary to fully describe the proposed construction. For alterations and renovations, some of the drawings may not be required.

## **Governing document excerpts applicable to Building Permits:**

### **New Construction – Soil, Fill, Laterals, Pins (Policy 9.5)**

A property owner or developer shall be solely responsible to source and pay for the related expenses of top soil, clay fill, and other related soil and aggregate material related to the development and/or construction on a property.

In the event that a lot has been purchased from the Town of Unity and top soil has been stripped and stockpiled for that lot, the owner shall contact the Director of Public Works to receive permission and direction as to how to acquire top soil.

A property owner shall be solely responsible for all costs of installation of water laterals and sewer laterals for new construction as per related Policy. In the event of new construction on a property that had previously been developed and has an existing water and sewer service, the property owner shall be expected to install a new water and in some cases sewer service from the new building to the water main, and will be solely responsible for all related costs including but not limited to the line materials, excavation and labour costs, fill, curbing, landscaping, and pavement.

A property owner shall be solely responsible to contact a surveyor to find property pins.

---

## **The Town of Unity Zoning Bylaw (939-P-09)**

### **4.9 GRADING AND LEVELING OF SITES**

**4.9.1** Every development shall be graded and leveled at the owner's expense to provide for adequate surface drainage that does not adversely affect adjacent property, or the stability of the land.

- a) All excavations or filling shall be re-vegetated immediately after other construction activities conclude, with a suitable ground cover as may be necessary to prevent erosion.
- b) All vegetation and debris in an area to be re-graded or filled must be removed from the site prior to site grading and leveling.
- c) All topsoil from an area that is to be re-graded must be stripped, stockpiled, and replaced on the re-graded area, or re-located to a site approved by Council.

---

### **Water & Sewer Laterals Installation/Breaks (Policy 9.3)**

For new residential or commercial/industrial construction, a property owner shall be solely responsible for the construction and expense related to the installation of water and sewer laterals and related materials.

For residential or commercial/industrial construction on land where an existing water and sewer lateral is in existence, the property owner shall replace the existing water and sewer lateral and related materials solely at their expense.

Prior to any construction, a property owner shall complete an Application for Water and Sewer Installation or Repair and submit it to the Director of Public Works for the Town of Unity for his/her review and potential approval.

The owner of a property shall be solely responsible for the cost of repair and all expenses (excavation, landscaping, materials, labour) for a water lateral line break occurring on that lateral line from their building to the water lateral curb-stop. The Town of Unity shall be responsible for the cost of all expenses for a water lateral break that would occur from and including the curb-stop to the water main in the street. Prior to construction, a property owner shall complete an Application for Water and Sewer Installation or Repair.
